Areas of practices

Corporation and Investment, Civil and Commercial Dispute Resolution,

Work experience

Wang Chengyue is good at law in construction engineering, company business, and other fields.

In the field of construction engineering, I have worked in a subsidiary company of China Energy Construction Group, engaged in engineering management related work, and am familiar with the construction project process; Has provided legal services for a large number of engineering projects during the development and implementation stages; He has acted as an agent and co-sponsored litigation and arbitration cases in the construction engineering field accepted by the High Court and various local courts, the China International Economic and Trade Arbitration Commission, and the Shenzhen International Arbitration Court, and understands the focus of disputes in this field and the handling risks at the litigation and non-litigation stages.

In terms of the company's business field, I was once appointed by a law firm to serve as a legal adviser to the legal department of a central enterprise, responsible for contract risk prevention and control, dispute resolution, and other businesses, establishing regulations and systems to effectively achieve risk prevention and control. In addition, he has also provided perennial legal advisory services to the following clients: China Electric Power Engineering Co., Ltd., a certain operating branch of PetroChina, China Eastern Airlines Co., Ltd., Beijing Zhenghe Hengji Waterfront Ecological Environment Management Co., Ltd., etc.

Social positions
